of water heretofore appropriated under A portion of Claim #621 of the Truckee River
(Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and
Decree. Said decree entered by the District Court of the United
Identify right in Decree.)
States for the State of Nevada in that certain action entitled The
United States of America Plaintiff, vs Orr Water Ditch Company et al
Defendants in Equity Docket A-3.

1. The source of water is Truckee River
Name of stream, lake, underground spring or other source.
2. The amount of water to be changed 129.02 miners inches (3.225 cfs) not to
exceed 290.0 acre feet. Second feet, acre feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Municipal & Domestic
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
4. The water heretofore permitted for Irrigation and stock water
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
5. The water is to be diverted at the following points of diversion as shown on applications
49886 and 49887 as filed in the Describe as being within a 40-acre subdivision of public survey and by course and
office of the State Engineer, Division of Water Resources. Said points
distance to a section corner. If on unsurveyed land, it should be stated. of diversion for Sierra Pacific Power
Company existing water treatment facilities are described in attached
Exhibit "A".
6. The existing permitted point of diversion is located within the Northwest one-quarter of the
If point of diversion is not changed, do not answer.
Southeast one-quarter (NW 1/4 SE 1/4) of Section 18, T.19N., R.21E., M.D.
B.&M. From said point the Northeast corner of said Section 18 bears
N. 42°45' East, a distance of 3018.0 feet (Largomarsino-Murphy Ditch).
7. Proposed place of use The certificated water service area of Sierra Pacific
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
Power Company as described in the legal description and shown on
the supporting map on file with the State Engineer's Office -
Division of Water Resources.
8. Existing place of use See attached claim transfer table Exhibit "B".
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or
manner of use of irrigation permit, describe acreage to be removed from irrigation.
9. Use will be from As decreed to of each year.
Month and Day Month and Day
10. Use was permitted from As decreed to of each year.
Month and Day Month and Day
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Water will be diverted at existing
State manner in which water is to be diverted, i.e. diversion structure, ditches,
company facilities, treated and placed into the existing distribution
pipes and flumes, or drilled well, etc. system.
12. Estimated cost of works Sierra has invested in excess of \$50 million in its
water treatment plants and its transmission and distribution system.
13. Estimated time required to construct works completed

14. Estimated time required to complete the application of water to beneficial use 1 year

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the Point of Diversion, Manner and Place of Use of a portion of the waters of the Truckee River as heretofore granted under Claim 621, Truckee River Final Decree is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.225 cubic feet per second, but not to exceed 290.0 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and be completed on or before July 23, 1989

Proof of completion of work shall be filed before August 23, 1989

Application of water to beneficial use shall be made on or before July 23, 1994

Proof of the application of water to beneficial use shall be filed on or before August 23, 1994

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed SEP 21 1989 IN TESTIMONY WHEREOF, I PETER G. MORROS

Proof of beneficial use filed SEP 08 1994 State Engineer of Nevada, have hereunto set my hand and the seal of
